SPEAKERCRAFT™

Wireless Subwoofer Kit / Wireless Subwoofer Receiver

Wireless Audio Kit Optimizes Bass Experience

Bass is meant to be felt and drive the audio experience to new levels. Where you place a subwoofer has a huge impact on sound quality, but sometimes you can't get a cable to the optimal subwoofer location. With the SpeakerCraft® wireless audio subwoofer kit, you can place the sub in a location that achieves the best possible sound for the room.

Simply connect the transmitter at your A/V source and the receiver to your subwoofer and you're ready for plug-and-play bass. All you need is a power source for the sub and you unlock the freedom to strategically place the subwoofer in its optimal location. Each transmitter supports up to four receivers for use with multiple subwoofers. All power supplies and connection cables are included with both the kit and individual receivers. Everything you need to complete the subwoofer wireless experience on site.

Get more bass from any space!

Wireless Subwoofer Kit / Wireless Subwoofer Receiver

SC-WIR-SUB-KIT-INT / SC-WIR-RX-INT

FEATURES

- **Wireless Connectivity** – Transmit audio from the source to the sub with a range of 10m.
- **Multiple Receivers** – Each transmitter can support up to 4 receivers. Individual receivers are available separately.
- **Interference Free** - 5 Ghz FHSS Technology for a robust wireless connection
- **Designated Mount** – Our Subwoofers have a mounting solution built-in to support the wireless receiver.
- **USB Powered** – Plug the receiver directly into the Subwoofer's USB port for power.
